/EL CURSO

Durante este curso el alumno adquirirá las habilidades lingüísticas y el vocabulario necesarios para comprender con éxito mensajes orales y escritos de complejidad intermedia en inglés utilizados en la industria del automóvil. Este curso proporciona oportunidades para que el alumno responda profesionalmente al lenguaje utilizado en situaciones familiares. El alumno estará expuesto a diferentes situaciones que ocurren en la industria del automóvil, tales como; la interacción con los vendedores de automóviles, las reparaciones de automóviles en un taller mecánico, así como el diseño y la construcción de un coche. El alumno tendrá muchas oportunidades de responder profesionalmente con el vocabulario correcto en estas situaciones. El alumno también participará en diálogos, respondiendo tanto de forma escrita como oral, que aumentarán su confianza en el uso de sus conocimientos recién formados. El contenido del curso es funcional y se centra por completo en mejorar la independencia del alumno en el ámbito del automóvil. El uso de una variedad de ejercicios abarca diferentes estilos de aprendizaje y garantiza una cobertura completa de los temas.

Duración y lecciones del curso:

/ 13 lecciones

/ 30 horas lectivas

Tecnología que mejora el **autoaprendizaje del Inglés:**

Reconocimiento por voz

Audios MP3 descargables

Videos con Story Telling

Test de nivel por destrezas

Grupos de conversación

Certificado de aprovechamiento

Para todos los dispositivos

Speaking, reading, listening, writing

Nuestros cursos online de inglés incorporan las **últimas tecnologías** para el autoaprendizaje. Tenemos cursos para todos los niveles del Marco Común Europeo de Referencia.

/Car Industry

1- Car parts I:

In this first of two lessons, students will be introduced to the essential parts of a car where the learner is encouraged to practice pronunciation from the very beginning. They will view content in a series of interactive exercises to promote vocabulary learning and understanding, and for reference, students will have access to vocabulary definitions which are then further reinforced by sentences showing common word usage in a sentence. To enhance vocabulary knowledge, exercises through various methods such as multiple choice and fill in the blank are used to confirm understanding.

2- Car parts II:

In this second of two lessons, the student will continue being introduced to vocabulary, specifically the parts of a car and parts of an engine which are presented through interactive methods. As before, student will have access to definitions and be able to see how they are used in sentences. Students will also respond to exercises to confirm understanding of these additional vocabulary words.

3- Typical situation - At the car dealership:

In this lesson the student will practice their understanding and comprehension by listening and following along with a typical situation in a real life situation. We will be listening to two people interact with a car salesperson as they look for the perfect car.

4- Dialogue - Car components:

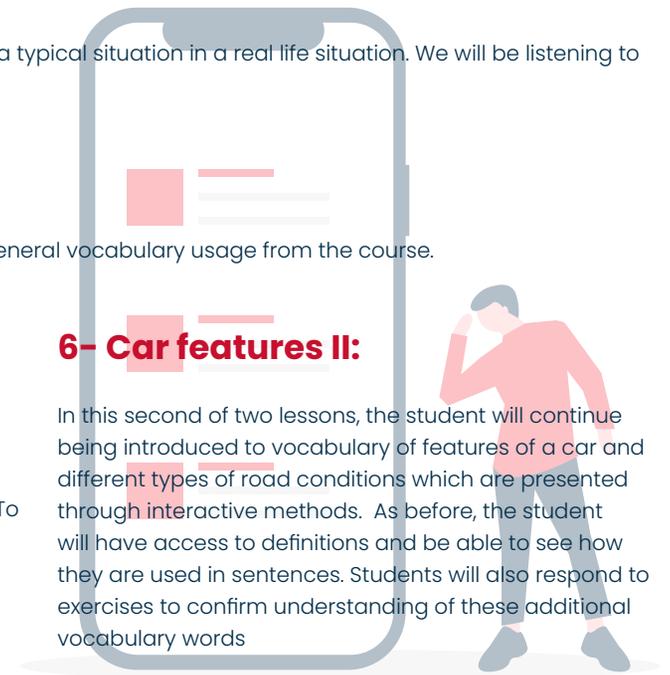

In this lesson the student will work their freeform speaking by answering questions related to car components and general vocabulary usage from the course.

5- Car features I:

In this first of two lessons, students will be introduced to the essential features of a car where the learner is encouraged to practice pronunciation from the very beginning. They will view content in a series of interactive exercises to promote vocabulary learning and understanding, and for reference, students will have access to vocabulary definitions which are then further reinforced by sentences showing common word usage in a sentence. To enhance vocabulary knowledge, exercises through various methods such as multiple choice and fill in the blank are used to confirm understanding.

6- Car features II:

In this second of two lessons, the student will continue being introduced to vocabulary of features of a car and different types of road conditions which are presented through interactive methods. As before, the student will have access to definitions and be able to see how they are used in sentences. Students will also respond to exercises to confirm understanding of these additional vocabulary words

/Car Industry
